

You Control The Climate Change

not just people who make this possible. Governments and industries, they
 are responsible. We will together prevent this tragedy. So
 make us happy and put your pledge in me! Plant a tree, two or three—
 in the end of May Tiny drops will form a sea— of action every day—
 You are in, let it burn like Frank, you're far from zero: A step by step you will turn in-
 to a climate hero! H - E - R - O! Turn down, switch off, re-
 cycle and walk. Four small changes, we act, we don't just talk.
 Make a pledge-and you make the change: You control the climate change
 Turn down, switch off, re-cycle and walk four small changes, we
 act, we don't just talk Make your pledges You make the change
 You control the climate change and we control the climate change
